*To the north an eerie, sulphurous sheen begins to ripple into the night sky. It arcs itself into an ebb and flow, slowly growing, then suddenly bursts across the full expanse of the night sky waving and dancing as if it were happy. It is the spectacular northern lights and viewing is common in the Yukon. Northern Lights viewing takes place outside the city in a heated cozy cabin or wall tent. Hot drinks and snacks are provided. Three Aurora Borealis viewing nights are included.*

*Other highlights include: a guided tour of Whitehorse and a visit to MacBride Museum which houses information on the Klondike Gold Rush. Visit the Yukon Beringia Interpretive Centre where you can explore the treasures of the vanished world of ice age giants and the stories of the first people in North America. Encompassing over 700 acres with various natural habitats, the Yukon Wildlife Preserve offers unparalleled wildlife viewing, education, and photo opportunities. As well have the unique experience of a dog sled ride.*

Winter conditions prevail. Not recommended for anyone with a walker
